

# Breast Cancer Patient Advocacy Program

A breast cancer diagnosis is a life changing event. We are here to help.

## What is a Patient Advocate?

A patient advocate can provide emotional support and resources specific to the individual needs of patients with breast cancer.

## Our breast health advocate will:

- Provide personalized support and guidance throughout all aspects of the breast cancer treatment process.
- Connect you and your loved ones to support services, resources, classes and informational sessions.

## Who Can Benefit?

- Newly diagnosed breast cancer patients
- Current breast cancer patients who are struggling emotionally
- Family and friends of patients with breast cancer
